

Bursary Guidelines

Bursaries

The seventh Annual bioProcessUK Conference is the UK's leading bioprocessing networking conference with young researchers representing a key segment of the delegates. This event brings together over 200 delegates from all levels of experience. It is a fantastic opportunity to raise awareness of your research and gain exposure to leading companies involved in making biological medicines.

The conference runs a popular Bursary Poster Competition where 25 high calibre postgraduate students and postdoctoral researchers have an opportunity to display a poster showcasing their research in biological medicines and bioprocessing. The competition also provides students with a chance to build their network by engaging with industry professionals.

Bursary holders will receive a complimentary conference ticket and reimbursement for travel and accommodation of up to £150. Prizes will be awarded for the best posters displayed. The winners will receive a ticket and reasonable expenses to attend the prestigious BioIndustry Association Gala Dinner in January 2011. This is the UK's premier biotechnology networking event.

Eligibility

The poster scheme is targeted at early stage researchers completing their postgraduate studies, engaged in their first postdoctoral position or at Masters level.

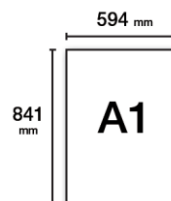

Deadline

To enter a poster into the competition, please email an abstract of no more than 200 words to Angela Dowdells, adowdells@bioindustry.org by **Friday 3rd September 2010**. Please ensure that your abstract has been signed off by your supervisor as we cannot be liable for any Intellectual Property implications.

Content and Design

Posters must display research in the field of biopharmaceuticals and the associated bioprocessing. Students should be aware that the audience is predominantly industrialists.

- Posters have a maximum allowed size of A1 (594mm x 841mm) portrait or landscape format
- Laminated posters are preferred

Posters must include:

- A brief abstract about the research
- The name of the academics involved in the research
- References to any associated academic papers
